Villa house in Santa Brígida

Gilmar offers you the possibility of teleworking from this incredible detached house thanks to its six hundred megabytes of fiber optics, located in a spectacular setting just ten minutes from the center of Santa Brígida. Its nearly three hundred meters of housing are developed on two floors plus a cozy attic topped by a spectacular wooden structure of Morera. The floors of the house are made of Jatoba and the doors and windows of Vitacola. In line with these quality woods are the exterior cladding of Ayagaure stone and stonework of Arucas, the limestone cladding of Valencia and Travertine marble in the bathrooms. From the living rooms we access through a porch to the more than one thousand square meters of garden where you can enjoy the swimming pool, barbecue area and fruit trees area.
